David-  
It looks like Wednesday at 2:00pst would be the best time.  
Tom

**Subject:** RE: RE: Fwd: Introduction to potential Class VI applicants

Hi Tom, Wed (1/13) in the afternoon and Friday (1/15) are also workable for us. Is there a time during one of those days that would work?

David-

Tuesday at 9 is awkward for me. Can you suggest another time or two? If not, we'll try to make Tuesday work but I am really squeezed that morning.

Tom

Tom, perhaps a different day would work better? My lead staff person generally cannot be available before 9am. Let me know if you prefer to set it for 9am Tuesday or look for a different date/time that might be more convenient for you. David

8 is better but I can do 9 for a while and the rest of our team can continue.

**Subject:** RE: FW: Introduction to potential Class VI applicants

Good afternoon Mr. Zuckerman, my apologies for not getting back to you sooner. I'd be happy to set up a time for us to talk about Class VI UIC permitting. I could do Tuesday morning, Wednesday afternoon, or Friday next week. If those time slots are not workable, please suggest a date/time for the following week that would better for you.

Regards,

David

David-

I am reforwarding the email I sent before the holidays which may have gotten lost in the festivities. We are still interested in pursuing the conversation suggested by George Peridas at your convenience.

**Subject:** Introduction to potential Class VI applicants

Hi David,

I wanted to introduce you to Tom, Brian and John Zuckerman. The Zuckerman family has been farming in the Delta for over a century now, and Tom has spent an illustrious career representing local water agencies' interests in the notorious water wars that the region is famous for, among several other things. In addition, you will find his sons extremely knowledgeable, sophisticated and agreeable.

The Zuckermans have significant holdings in the Delta, and are also acting as the agent of a "unit" that controls 6,600 acres of land and the underlying mineral rights. They are eager to get a geologic carbon sequestration project going, and want to discuss a potential Class VI injection well permit application with you.

I am connecting you so you can discuss further at your convenience.

Many thanks,

**George Peridas, Ph.D.**

Director, Carbon Management Partnerships
